

# Let's Save America: 'Bury The Lines'

From America's largest state to our smallest (and everywhere in between), **fire & ice rob us** of power that defines modern life.

- **Californians** endure raging wildfires, but **PG&E** switches half the state into blackouts due to aging power lines. **Wildfires – like hatred – burn without compromise.**
- **Vermonters** are robbed by blizzards and lightning that divide neighbors, while **Green Mountain Power** must work tirelessly on lines downed by storms.

**The power & glory of greatness can be retained only when Americans work together again.**

In America's darkest hour, Mr. Roosevelt told us that, "**The only thing we have to fear... is fear itself.**" **Franklin Delano Roosevelt** saved a fearful nation with his **NEW DEAL**... like the **rural electrification** & **Tennessee Valley Authority** that rescued ordinary America from the fear and darkness that divided us. **Now is the time for a national mission, to BURY THE UTILITY LINES that rob us of power.**

Let's **WORK TOGETHER** to  
**SAVE AMERICA** from fear.  
Let's **BURY THE LINES!**
